ClearSpend parsed in 2.9s

₹380 • Zomato Lunch • HDFC

Budget: 58% used

From chai receipts to crores — auto-tracked

Zero manual entry. Works in English, Hindi & Tanglish.

India tracks **every** UPI, understands none.

700M UPI users generate 2B receipts monthly. Yet 84% abandon expense apps in week 1 because manual entry feels like filing taxes.

30 seconds per transaction

Copy from SMS, switch apps, pick category, add wallet. Repeat 8× daily. No one does.

30s

WASTED

4 wallets, zero truth

HDFC for salary, GPay UPI for chai, cash for auto, ICICI for rent. No single source of truth.

4.2

AVG WALLETS

No insight, no action

You know you spent, never why. Budgets in Excel, reality in SMS. Wealth leaks silently.

84%

QUIT

Why Expense Apps Fail in Bharat

HIGH ABANDONMENT

Manual entry fatigue 67%

Too many wallets to track 52%

No actionable insights 43%

Privacy concerns / ads 38%

💡 **Key insight:** Indians don't need another ledger. They need **instant clarity without typing** — like UPI itself. ClearSpend auto-reads what banks already sent.

+3 MEMORY

Catches what banks miss — double debits.

UPI double-debit is Bharat’s silent tax — ₹1,200 debited twice for one petrol pump transaction. ClearSpend detects it in real time.

1

Smart duplicate window (5-min + same amount + same merchant) PATTERN MATCH

If “₹1,200 PetrolPump” appears twice within 5 minutes, flag as potential duplicate. 92% precision, zero false SMS noise.

2

UPI edge case: Bank SMS + GPay notification counted as one ₹1.2k SAVED

Most apps double-count. We de-duplicate bank SMS and wallet app notification using transaction hash + time tolerance.

3

Anomaly detection for fraud & overspend ON-DEVICE

Sudden 3× spike in Food or unknown merchant at 2 AM triggers review. On-device, private.
